ICP DAS USA, Inc. Introduces Multi-mode 4 Port Ethernet Switch with 1 Fiber Port

ICP DAS USA, Inc. introduces [NS-205AFT-T](#), a 4-port unmanaged Ethernet switch with 1 fiber port. Fiber optics helps prevent noise from interfering with your system and supports high-speed (100 Mbps) and long distance (up to 60 km) transmissions. For your convenience, each port supports both 10/100 Mbps speed with auto negotiation, and it comes with automatic MDI/MDI-X crossover for plug-and-play.

The [NS-205AFT-T](#) provides a wide 12 to 48 VDC power range for use with common power standards in industrial automation applications without external power converters. The wide power input allows users to keep installation and maintenance costs down. It supports operating temperatures from -30°C ~ +75°C (86°F – 167°F).

[ICP DAS USA](#) is a cost-effective leader in the U.S. industrial market; offering a stunningly competitive price/performance ratio, while catering to the latest solutions for current industrial trends. We seek to provide our customers with cost-effective, flexible, and easy-to-use solutions for their Data Acquisition and Embedded Control Applications. [ICP DAS USA](#) provides a great variety of products with modular and universal solutions for any scale application or projects.

To learn more about the variety of ideas and real projects integrated with ICP DAS hardware, visit our website at www.icpdas-usa.com, or give us a call, toll free, at 1-888-971-9888 and one of our engineers would be happy to assist in reviewing the project requirements, ensuring that the highest quality solution is presented in your final application.
