ICP DAS USA, Inc. Introduces Industrial 5-port Unmanaged IP67 Ethernet Switch

ICP DAS USA, Inc. introduces NS-205PSE-IP67, an industrial 5-port unmanaged IP67 Ethernet switch that can power Power over Ethernet devices. Designed for industrial applications in harsh environments, it ensures tight, waterproof and dustproof robust connections and guarantees reliable operation, even in applications subject to high vibration and shock. The NS-205PSE-IP67 PoE switch provides 5 fast Ethernet with 4 IEEE 802.3af compliant PoE ports.

NS-205PSE-IP67 Ethernet switch comes with 5 IP67 RJ45 plugs, 1 IP67 power plug, 5 caps each with a tether, and supports operating temperatures from -10°C ~ +60°C. As a Power Sourcing Equipment (PSE) device, NS-205PSE-IP67 provides up to 15.4 W of power per port. It supports IEEE 802.3/802.3u/802/3x with 10/100M, full/half-duplex, and MDI/MDI-X auto-sensing. Featuring auto-detection of Power Devices (PD) and automatic power management, it offers an economical and convenient solution for your industrial Ethernet networks.

ICP DAS USA is a cost-effective leader in the U.S. industrial market; offering a stunningly competitive price/performance ratio, while catering to the latest solutions for current industrial trends. We seek to provide our customers with cost-effective, flexible, and easy-to-use solutions for their Data Acquisition and Embedded Control Applications. ICP DAS USA provides a great variety of products with modular and universal solutions for any scale application or projects.

To learn more about the variety of ideas and real projects integrated with ICP DAS hardware, visit our website at www.icpdas-usa.com, or give us a call, toll free, at 1-888-971-9888 and one of our engineers would be happy to assist in reviewing the project requirements, ensuring that the highest quality solution is presented in your final application.
