ICP DAS USA, Inc. Introduces Intelligent 3G SMS/Voice Alarm Controller

ICP DAS USA, Inc. introduces [SMS-534](#), an intelligent 3G SMS / Voice alarm controller for industrial applications. It allows you to remotely monitor and control alarm systems from any location. You can send out critical alarm information to any number of mobile phones.

[SMS-534](#) supports simple commands and SMS tunneling functions and can be powered by external power or a Lithium battery. It is communicable over RS-485 and RS-232. [SMS-534](#) supports UNICODE or 7 bit format, allowing users to send SMS messages in various languages. It also supports the sending of sound alarms via pre-defined voice files.

[SMS-534](#) supports ASCII automatic identification and SMS settings and controls so it can send SMS messages with simple commands. It also comes with a 4G micro SD card for data logging. The DTMF function of [SMS-534](#) is for the applications with the keypad of phones to control the local I/O. In addition, with ICP DAS SMS DBS software, users can centrally manage [SMS-534](#) from a PC.

[ICP DAS USA](#) is a cost-effective leader in the U.S. industrial market; offering a stunningly competitive price/performance ratio, while catering to the latest solutions for current industrial trends. We seek to provide our customers with cost-effective, flexible, and easy-to-use solutions for their Data Acquisition and Embedded Control Applications. [ICP DAS USA](#) provides a great variety of products with modular and universal solutions for any scale application or projects.

To learn more about the variety of ideas and real projects integrated with ICP DAS hardware, visit our website at www.icpdas-usa.com, or give us a call, toll free, at 1-888-971-9888 and one of our engineers would be happy to assist in reviewing the project requirements, ensuring that the highest quality solution is presented in your final application.
